

How OnceMore.fit Built a Wellness Brand Designed to Grow

From a logo and a WordPress website to social media, creative production and Meta ad campaigns that generate qualified leads — building a science-backed wellness brand that turns attention into booked consultations.

CLIENT

OnceMore.fit

INDUSTRY

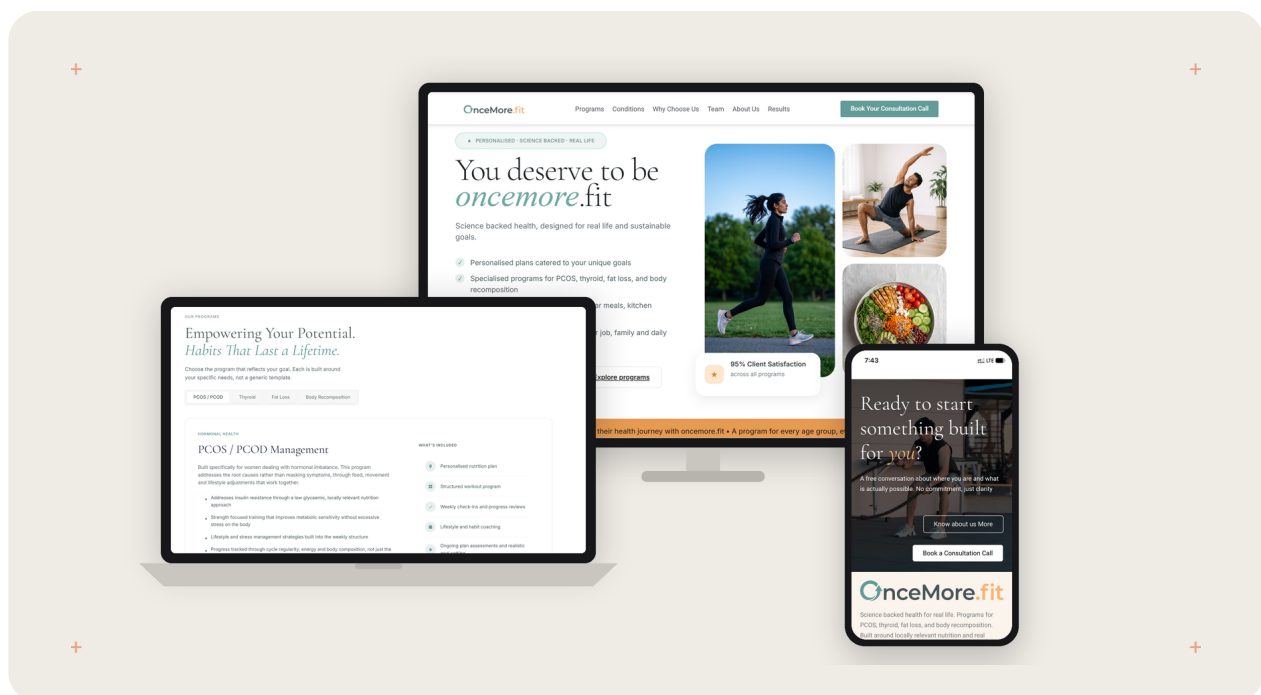

Health & Fitness Coaching

TIMELINE

4 Months

SERVICES

Branding, WordPress, Social, Creative & Meta Lead Gen

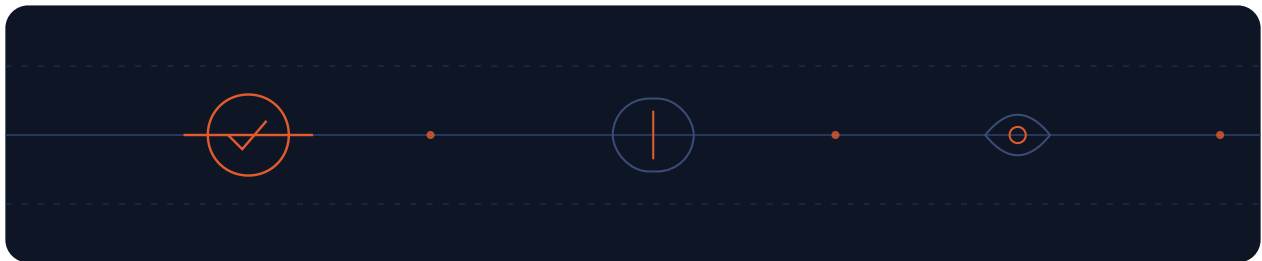

OnceMore.fit is a science-backed health and fitness coaching brand, offering personalised programs for PCOS & PCOD, thyroid, fat loss and body recomposition — with nutrition rooted in real, everyday life rather than generic templates.

THE VISION

More Than Just a Website

OnceMore.fit needed more than a good-looking site — they needed a trustworthy brand and a system that turns interest into consultations. At The Digital Hike, we became their full-stack partner, from identity to lead generation:

- **A calm, credible brand identity & logo** that signals science-backed care
- **A WordPress website** built to turn visitors into consultation bookings
- **Full social media management** across Instagram, YouTube, Facebook & LinkedIn
- **Creative production** — statics, carousels and edited video
- **Meta ad campaigns** built for lead generation
- **A scalable, easy-to-manage foundation** the team can grow on

EXECUTION STRATEGY

One Brand, Every Touchpoint

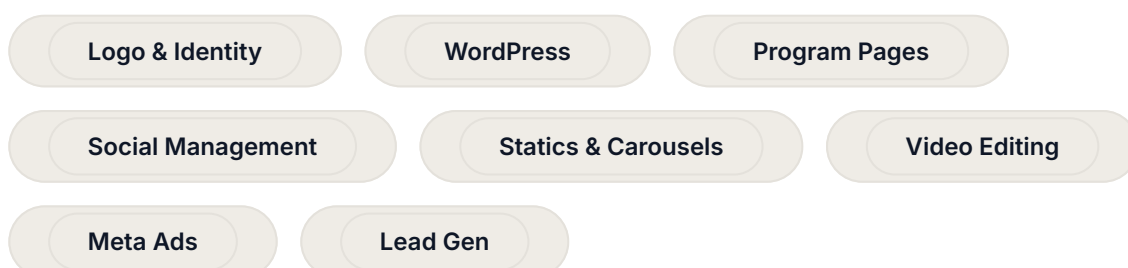

Building a wellness brand and the full system that turns attention into booked consultations.

Building the Brand

We began at the foundation — designing OnceMore.fit's logo and a calm, premium visual identity that signals credibility and care, exactly what health-conscious clients look for before they trust someone with their body.

A WordPress Website Built to Convert

We built a WordPress website structured around how clients decide — clear program and condition pages for PCOS, thyroid, fat loss and body recomposition, with “Book a Consultation Call” paths within reach on every screen.

Social Media & Creative

We managed OnceMore.fit's presence across Instagram, YouTube, Facebook and LinkedIn — producing a steady stream of statics, carousels and edited video that educate on hormonal health, nutrition and sustainable fitness, and build the trust that turns a follower into a consultation.

Meta Ads & Lead Generation

To keep the calendar full, we ran Meta ad campaigns built specifically for lead generation — targeting the right audiences with the right message and driving qualified, ready-to-book leads straight into the consultation funnel.

OWNED

WordPress Site

Program-led pages guiding visitors to book a consultation.

ORGANIC

Social & Creative

Four platforms plus statics, carousels and video, building trust.

PAID

Meta Lead Gen

Targeted campaigns generating qualified consultation leads.

THE RESULT

A Wellness Brand Built to Grow

By building the brand, the website, the content and the campaigns as one connected system, OnceMore.fit now has a credible presence that consistently turns interest into consultation calls. Key outcomes included:

- A calm, credible brand identity and logo that build instant trust
- A WordPress website that guides visitors toward booking a consultation
- Full social management across four platforms — Instagram, YouTube, Facebook & LinkedIn
- A steady creative engine — statics, carousels and edited video
